## Internship

**Playsimple Game, Bangaluru** **Februray 2025 - Present**  
**Software Engineer Intern**

- Contributed to the development of interactive UI components and custom animations for a word game using Flutter, enhancing player engagement and visual appeal.
- Worked closely with the design and game logic teams to integrate animations that improved gameplay flow and user experience.
- Implemented responsive and visually consistent interfaces across different screen sizes and platforms.
- Collaborated in an agile development environment, participating in sprint planning, code reviews, and daily stand-ups.

## Projects

**LawAware, Hackathon Project** **October 2024**  

- Engineered a legal awareness platform that won first prize in a 48-hour hackathon, simplifying access to legal resources and constitutional information.
- Implemented an interactive chatbot for legal queries and developed a community forum for expert discussions and user interactions.
- Created a responsive interface for legal articles, child safety guidelines, and news updates using ReactJS components.
- ReactJS, NodeJS, MongoDB Atlas.

**EZFood, Full Stack Project** **February 2024 - April 2024**  

- Architected and deployed a local food discovery platform with integrated AI chatbot, achieving 90% positive feedback.
- Implemented secure user authentication system and developed an intuitive admin dashboard for content management.
- Designed and built RESTful APIs for dish search functionality, user reviews, and real-time data analytics.
- Technologies: NodeJS, ExpressJS, MongoDB Atlas, HTML, CSS, JavaScript, REST APIs.

## Certifications

**Competitive Programming - SPRUCE (Hitbullseye), Lovely Professional University** **June 2024 - July 2024**  

- Developed strong problem-solving abilities through hands-on practice with data structures, algorithms, and competitive programming challenges.
- Enhanced technical proficiency through comprehensive training with real-time coding assessments.

## Achievements

- Won Code Storm, an internal college hackathon, for developing a full-stack web application.
- Solved 250+ algorithmic challenges on LeetCode with rating of 1500+.
- Achieved Golden Badge (5-star) certification in C++ programming on HackerRank.

## Skills

**Languages:** Dart, C/C++, JavaScript, SQL.  
**Technologies & Tools:** Flutter, NodeJS, ReactJS, ExpressJS, MongoDB Atlas, Git, GitHub.  
**Soft Skills:** Problem Solving, Team Collaboration, Leadership, Time Management, Attention to Detail.

## Education

<b>Lovely Professional University</b> B.Tech. in Computer Science and Engineering Phagwara, Punjab	<b>August 2022 - June 2026</b> <b>CGPA: 8.95/10</b>
<b>Shree Agrasen Shiksha Sadan Sr Sec School</b> Higher Secondary Certificate (HSC) Tonk, Rajasthan	<b>August 2020 - June 2021</b> <b>CGPA: 9.4/10</b>
<b>St Joseph Academy</b> Secondary School Certificate (SSC) Jaipur, Rajasthan	<b>August 2018 - June 2019</b> <b>CGPA: 8.3/10</b>
